	317163081402	10317163081409	140A	PondCare® Stress Coat®	Fish and Water Conditioner	8 fl. oz. bottle (237 ml)	Treats 960 US Gal (3,634 L)	Instantly removes chlorine and neutralizes chloramines, replaces the natural slime coating fish may lose during times of stress.
	317163051405	10317163051402	140B	PondCare® Stress Coat®	Fish and Water Conditioner	16 fl. oz. bottle (473 ml)	Treats 1,920 US Gal (7,268 L)	Instantly removes chlorine and neutralizes chloramines, replaces the natural slime coating fish may lose during times of stress.
	317163071403	10317163072650	140G	PondCare® Stress Coat®	Fish and Water Conditioner	32 fl. oz. bottle (946 ml)	Treats 3,840 US Gal (14,536 L)	Instantly removes chlorine and neutralizes chloramines, replaces the natural slime coating fish may lose during times of stress.
	317163041406	10317163041403	140D	PondCare® Stress Coat®	Fish and Water Conditioner	64 fl. oz. bottle (1.89 L)	Treats 7,680 US Gal (29,072 L)	Instantly removes chlorine and neutralizes chloramines, replaces the natural slime coating fish may lose during times of stress.
	317163281406	10317163281403	140C	PondCare® Stress Coat®	Fish and Water Conditioner	1 gallon bottle (3.78 L)	Treats 15,360 US Gal (58,144 L)	Instantly removes chlorine and neutralizes chloramines, replaces the natural slime coating fish may lose during times of stress.
	317163081419	10317163081416	141A	PondCare® Chlorine & Heavy Metal Neutralizer	Dechlorinator	8 fl. oz. bottle (237 ml)	Treats 4,800 US Gal (18,170 L)	Instantly makes tap and well water safe for pond life. Use when setting up a pond or changing pond water
	317163051412	10317163051419	141B	PondCare® Chlorine & Heavy Metal Neutralizer	Dechlorinator	16 fl. oz. bottle (473 ml)	Treats 9,600 US Gal (36,340 L)	Instantly neutralizes chlorine, copper, lead & zinc found in tap water & heavy metals caused by soil leaching & acid rain.
	317163071410	10317163071417	141G	PondCare® Chlorine & Heavy Metal Neutralizer	Dechlorinator	32 fl. oz. bottle (946 ml)	Treats 19,200 US Gal (72,680 L)	Instantly neutralizes chlorine, copper, lead & zinc found in tap water & heavy metals caused by soil leaching & acid rain.
	317163081426	10317163081423	142A	PondCare® Accu-Clear®	Pond Clarifier	8 fl. oz. bottle (237 ml)	Treats 2,400 US Gal (9,085 L)	Quickly clears cloudy pond water and keeps ponds crystal-clear. Helps filters work more efficiently.
	317163051429	10317163051426	142B	PondCare® Accu-Clear®	Pond Clarifier	16 fl. oz. bottle (473 ml)	Treats 4,800 US Gal (18,170 L)	Quickly clears cloudy pond water and keeps ponds crystal-clear. Improves pond filter efficiency.
	317163071427	10317163071424	142G	PondCare® Accu-Clear®	Pond Clarifier	32 fl. oz. bottle (946 ml)	Treats 9,600 US Gal (36,340 L)	Quickly clears cloudy pond water and keeps ponds crystal-clear. Improves pond filter efficiency.
	317163041420	10317163041427	142D	PondCare® Accu-Clear®	Pond Clarifier	64 fl. oz. bottle (1.89 L)	Treats 19,200 US Gal (72,680L)	Quickly clears cloudy pond water and keeps ponds crystal-clear. Helps filters work more efficiently.
	317163281420	10317163281427	142C	PondCare® Accu-Clear®	Pond Clarifier	1 gallon bottle (3.78 L)	Treats 38,400 US Gal (145,344 L)	Quickly clears cloudy pond water and keeps ponds crystal-clear. Helps filters work more efficiently.
	317163011447	10317163011444	144B	PondCare® Feeder Block™	Fish Vacation Feeder	5 oz Block (142g)	n/a	Automatically dissolves to slowly release nutritious pellets to feed your pond fish while you are away.
	317163011461	10317163011468	146	PondCare® Pond-Zyme® Plus Heavy Duty Pond Cleaner	Heavy Duty Pond Cleaner	8 oz. jar (227 g)	Treats up to 8,000 U.S. gallons (30,280 L)	Cleans and clarifies pond water. Eliminates troublesome organic sludge and debris to create and maintain sparkling clean water gardens.
	317163021460	10317163021467	146B	PondCare® Pond-Zyme® Plus Heavy Duty Pond Cleaner	Heavy Duty Pond Cleaner	1 lb. Jar (454 g)	Treats up to 16,000 U.S. gallons (60,560 L)	Cleans and clarifies pond water. Eliminates troublesome organic sludge and debris to create and maintain sparkling clean water gardens.
	317163012468	10317163012465	246A	PondCare® PowerPaks™ E-Z Dose Pond Cleaner	Single Dose Pond Cleaner	Contents 8 each - 1 oz (28 g) PAKs	Treats up to 9,600 U.S. gallons (36,340 L)	No measuring or mixing required. Easy to use, super concentrated, water soluble packets begin to dissolve in seconds. Simply toss the required number of POWERPAKS into the pond.
C	317163011478	10317163011475	147A	PondCare® EcoFix	Bacterial Pond Clarifier	8 fl. oz. bottle (237 ml)	Treats up to 2,000 US gallons. (7,570 L)	Liquid bacterial pond cleaner. Degrades dead algae, sludge and organic debris to keep a clean and well balanced pond.

PondCare(R) PRODUCTS**

Product , D= Discontinued , C= Change in Pro		
Vendor Item Number	Product Name	Product Description
140A	PondCare® Stress Coat®	Instantly removes chlorine and breaks the chloramine bond to make tap water safe for your pond. Replaces the natural slime coating fish may lose from handling, netting or other forms of stress. Contains Aloe Vera to help heal wounds and torn fins.
140B	PondCare® Stress Coat®	Instantly removes chlorine and breaks the chloramine bond to make tap water safe for your pond. Replaces the natural slime coating fish may lose from handling, netting or other forms of stress. Contains Aloe Vera to help heal wounds and torn fins.
140G	PondCare® Stress Coat®	Instantly removes chlorine and breaks the chloramine bond to make tap water safe for your pond. Replaces the natural slime coating fish may lose from handling, netting or other forms of stress. Contains Aloe Vera to help heal wounds and torn fins.
140D	PondCare® Stress Coat®	Instantly removes chlorine and breaks the chloramine bond to make tap water safe for your pond. Replaces the natural slime coating fish may lose from handling, netting or other forms of stress. Contains Aloe Vera to help heal wounds and torn fins.
140C	PondCare® Stress Coat®	Instantly removes chlorine and breaks the chloramine bond to make tap water safe for your pond. Replaces the natural slime coating fish may lose from handling, netting or other forms of stress. Contains Aloe Vera to help heal wounds and torn fins.
141A	PondCare® Chlorine & Heavy Metal Neutralizer	Instantly neutralizes chlorine, copper, lead and zinc, as well as other heavy metals found in tap and well water, all of which may be toxic to fish and plants. Use when setting up a pond or changing pond water. One ounce treats 600 US gallons of pond water.
141B	PondCare® Chlorine & Heavy Metal Neutralizer	Instantly neutralizes chlorine, copper, lead and zinc, as well as other heavy metals found in tap and well water, all of which may be toxic to fish and plants. Use when setting up a pond or changing pond water. One ounce treats 600 US gallons of pond water.
141G	PondCare® Chlorine & Heavy Metal Neutralizer	Instantly neutralizes chlorine, copper, lead and zinc, as well as other heavy metals found in tap and well water, all of which may be toxic to fish and plants. Use when setting up a pond or changing pond water. One ounce treats 600 US gallons of pond water.
142A	PondCare® Accu-Clear®	Quickly clears cloudy pond water by causing tiny suspended particles to clump together, forming larger particles that fall to the bottom and are siphoned out or removed by the pond filter. Maintains crystal-clear water and improves filter efficiency.
142B	PondCare® Accu-Clear®	Quickly clears cloudy pond water by causing tiny suspended particles to clump together, forming larger particles that fall to the bottom and are siphoned out or removed by the pond filter. Maintains crystal-clear water and improves filter efficiency.
142G	PondCare® Accu-Clear®	Quickly clears cloudy pond water by causing tiny suspended particles to clump together, forming larger particles that fall to the bottom and are siphoned out or removed by the pond filter. Maintains crystal-clear water and improves filter efficiency.
142D	PondCare® Accu-Clear®	Quickly clears cloudy pond water by causing tiny suspended particles to clump together, forming larger particles that fall to the bottom and are siphoned out or removed by the pond filter. Maintains crystal-clear water and improves filter efficiency.
142C	PondCare® Accu-Clear®	Quickly clears cloudy pond water by causing tiny suspended particles to clump together, forming larger particles that fall to the bottom and are siphoned out or removed by the pond filter. Maintains crystal-clear water and improves filter efficiency.
144B	PondCare® Feeder Block™ Fish	Vacation fish food blocks slowly release nutritious pellets to feed your pond fish while you are away . Will feed approximately 5 goldfish or koi (5-10 inches in length) for 5 to 7 days.
146	PondCare® Pond-Zyme® Plus Heavy Duty Pond Cleaner	Specially selected, non-pathogenic bacteria immediately begin to break down dead algae and other organic pond waste that cause cloudy water and sludge build-up. Cleans and clarifies pond water. 100% natural and safe for all fish, plants and wildlife.
146B	PondCare® Pond-Zyme® Plus Heavy Duty Pond Cleaner	Specially selected, non-pathogenic bacteria immediately begin to break down dead algae and other organic pond waste that cause cloudy water and sludge build-up. Cleans and clarifies pond water. 100% natural and safe for all fish, plants and wildlife.
246A	PondCare® PowerPaks™ E-Z Dose Pond Cleaner	No measuring or mixing required. Easy to use, super concentrated, water soluble packets begin to dissolve in seconds. Simply toss the required number of POWERPAKS into the pond. The water will dissolve the POWERPAKS in seconds, releasing the natural cleaners into the pond to do their job. The activation bubbles rapidly disperse the natural bacteria & barley throughout the pond.
147A	PondCare® EcoFix	EcoFix is a powerful natural combination of five bacteria strains to efficiently degrade dead algae and sludge in pond while maintaining healthy and active nitrification. Ecofix helps reduce pond maintenance when used on a regular basis by reducing pollution and increasing the concentration of dissolved oxygen.

Vendor Item Number	Product Name	Product Description
147B	PondCare® EcoFix	EcoFix is a powerful natural combination of five bacteria strains to efficiently degrade dead algae and sludge in pond while maintaining healthy and active nitrification. Ecofix helps reduce pond maintenance when used on a regular basis by reducing pollution and increasing the concentration of dissolved oxygen.
147D	PondCare® EcoFix®	EcoFix is a powerful natural combination of five bacteria strains to efficiently degrade dead algae and sludge in pond while maintaining healthy and active nitrification. Ecofix helps reduce pond maintenance when used on a regular basis by reducing pollution and increasing the concentration of dissolved oxygen.
147C	PondCare® EcoFix®	EcoFix is a powerful natural combination of five bacteria strains to efficiently degrade dead algae and sludge in pond while maintaining healthy and active nitrification. Ecofix helps reduce pond maintenance when used on a regular basis by reducing pollution and increasing the concentration of dissolved oxygen.
248B	PondCare® Simply Clear®	Simply Clear quickly and effectively clears up murky, cloudy water while improving water quality. A special blend of bacteria effectively breaks down organic flocculated matter that would otherwise accumulate, consume oxygen from pond water and cause poor water quality conditions.
248G	PondCare® Simply Clear®	Simply Clear quickly and effectively clears up murky, cloudy water while improving water quality. A special blend of bacteria effectively breaks down organic flocculated matter that would otherwise accumulate, consume oxygen from pond water and cause poor water quality conditions.
248D	PondCare® Simply Clear®	Simply Clear quickly and effectively clears up murky, cloudy water while improving water quality. A special blend of bacteria effectively breaks down organic flocculated matter that would otherwise accumulate, consume oxygen from pond water and cause poor water quality conditions.
248C	PondCare® Simply Clear®	Simply Clear quickly and effectively clears up murky, cloudy water while improving water quality. A special blend of bacteria effectively breaks down organic flocculated matter that would otherwise accumulate, consume oxygen from pond water and cause poor water quality conditions.
138B	PondCare® Barley Clear	Barley Clear is a highly concentrated suspension of natural barley and peat plus natural activators. Phenolic compounds found in the Barley naturally clears the pond. Barley Clear is also helps maintain the natural carbon balance, which stabilizes water quality and maintains clear water. Plus the natural properties of peat, buffer the pH for a more stable pond environment.
138D	PondCare® Barley Clear	Barley Clear is a highly concentrated suspension of natural barley and peat plus natural activators. Phenolic compounds found in the Barley naturally clears the pond. Barley Clear is also helps maintain the natural carbon balance, which stabilizes water quality and maintains clear water. Plus the natural properties of peat, buffer the pH for a more stable pond environment.
155B	PondCare® PHOS-OUT™	Phosphate can enter ponds through tap water, fish food and other sources. Excess phosphate can cloud pond water. PHOS-OUT™ binds with inorganic phosphate, making the phosphate unavailable as a nutrient. One treatment will remove 1.5 ppm phosphate.
155D	PondCare® PHOS-OUT™	Phosphate can enter ponds through tap water, fish food and other sources. Excess phosphate can cloud pond water. PHOS-OUT™ binds with inorganic phosphate, making the phosphate unavailable as a nutrient. One treatment will remove 1.5 ppm phosphate.
166B	PondCare® Ammo-Lock®	Removes chlorine and chloramines in tap water. Locks up ammonia, converting it into a form that is nontoxic to aquatic life and a source of nutrition for nitrifying bacteria in the biological filter. Eliminates ammonia stress and promotes healthy gill function of pond fish.
166D	PondCare® Ammo-Lock®	Removes chlorine and chloramines in tap water. Locks up ammonia, converting it into a form that is nontoxic to aquatic life and a source of nutrition for nitrifying bacteria in the biological filter. Eliminates ammonia stress and promotes healthy gill function of pond fish.
167B	PondCare® Algae Destroyer™ Advanced	Keeps koi ponds and goldfish ponds clean and clear. Helps resolve algae problems. Controls many types of green or green water algae, string or hair algae and blanketweed in ponds that contain live plants. It also helps resolve additional algae blooms.
169A	PondCare® AlgaeFix®	Effectively controls many types of green or green water algae, string or hair algae and blanketweed in ponds that contain live plants. Controls existing algae and helps resolve additional algae blooms. Keeps ornamental ponds and water gardens clean & clear.
169B	PondCare® AlgaeFix®	Effectively controls many types of green or green water algae, string or hair algae and blanketweed in ponds that contain live plants. Controls existing algae and helps resolve additional algae blooms. Keeps ornamental ponds and water gardens clean & clear.
169G	PondCare® AlgaeFix®	Effectively controls many types of green or green water algae, string or hair algae and blanketweed in ponds that contain live plants. Controls existing algae and helps resolve additional algae blooms. Keeps ornamental ponds and water gardens clean & clear.

Mars Fishcare (formerly Aquarium Pharmaceuticals)
PondCare(R) PRODUCTS

Product, D= Discontinued, C= Change in Pro		
Vendor Item Number	Product Name	Product Description
169D	PondCare® AlgaeFix®	Effectively controls many types of green or green water algae, string or hair algae and blanketweed in ponds that contain live plants. Controls existing algae and helps resolve additional algae blooms. Keeps ornamental ponds and water gardens clean & clear.
169C	PondCare® AlgaeFix®	Effectively controls many types of green or green water algae, string or hair algae and blanketweed in ponds that contain live plants. Controls existing algae and helps resolve additional algae blooms. Keeps ornamental ponds and water gardens clean & clear.
169J	PondCare® AlgaeFix®	Effectively controls many types of green or green water algae, string or hair algae and blanketweed in ponds that contain live plants. Controls existing algae and helps resolve additional algae blooms. Keeps ornamental ponds and water gardens clean & clear.
269B	PondCare® Microbial Algae Clean	Microbial Algae Clean contains a patented bacteria controlling green water algae in ponds with live fish and plants. It promotes a cleaner pond environment by eliminating organic sludge and debris, improving dissolved oxygen levels, and reducing noxious odors.
269G	PondCare® Microbial Algae Clean	Microbial Algae Clean contains a patented bacteria controlling green water algae in ponds with live fish and plants. It promotes a cleaner pond environment by eliminating organic sludge and debris, improving dissolved oxygen levels, and reducing noxious odors.
269D	PondCare® Microbial Algae Clean	Microbial Algae Clean contains a patented bacteria controlling green water algae in ponds with live fish and plants. It promotes a cleaner pond environment by eliminating organic sludge and debris, improving dissolved oxygen levels, and reducing noxious odors.
269C	PondCare® Microbial Algae Clean	Microbial Algae Clean contains a patented bacteria controlling green water algae in ponds with live fish and plants. It promotes a cleaner pond environment by eliminating organic sludge and debris, improving dissolved oxygen levels, and reducing noxious odors.
170B	PondCare® pH Down®	Slowly neutralizes alkaline substances that cause high pH (pH of pond water is affected by mineral leaching, soil runoff & decomposing waste). A high pH limits the ability of aquatic plants to absorb necessary nutrients. Contains no algae-promoting phosphates.
171B	PondCare® pH UP®	Slowly neutralizes acidic substances that cause low pH (pH of pond water is affected by mineral leaching, soil runoff & decomposing waste). A low pH can stress pond fish & suppress the activity of the biological filter. Contains no algae-promoting phosphates.
106D	PondCare® Pond Salt	All-natural sea salt improves gill function, protects against nitrite toxicity & reduces stress by helping maintain a natural balance of electrolytes. Can safely be used with Pond Care water conditioners, filtration materials, medications & fish foods.
156	PondCare® Pond Salt	All-natural sea salt improves gill function, protects against nitrite toxicity & reduces stress by helping maintain a natural balance of electrolytes. Can safely be used with Pond Care water conditioners, filtration materials, medications & fish foods.
156C	PondCare® Pond Salt	All-natural sea salt improves gill function, protects against nitrite toxicity & reduces stress by helping maintain a natural balance of electrolytes. Can safely be used with Pond Care water conditioners, filtration materials, medications & fish foods.
176B	PondCare® MelaFix®	All-natural antibacterial remedy rapidly repairs damaged fins, ulcers & open wounds. Treats fin & tail rot. Use when adding new fish to the pond. Will not affect the biological filter or alter the pH of the pond. Safe for snails and other invertebrates.
176C	PondCare® MelaFix®	All-natural antibacterial remedy rapidly repairs damaged fins, ulcers & open wounds. Treats fin & tail rot. Use when adding new fish to the pond. Will not affect the biological filter or alter the pH of the pond. Safe for snails and other invertebrates.
178B	PondCare® PimaFix®	PimaFix uses the antifungal power of Pimenta racemosa (West Indian Bay Tree) for the treatment of fungal infections in freshwater and saltwater fish. Rapidly treats fungal infections on body and fins. Inhibits the development of resistant strains of disease-causing organisms
178C	PondCare® PimaFix®	PimaFix uses the antifungal power of Pimenta racemosa (West Indian Bay Tree) for the treatment of fungal infections in freshwater and saltwater fish. Rapidly treats fungal infections on body and fins. Inhibits the development of resistant strains of disease-causing organisms
187B	PondCare® Aquatic Planting Media	100% natural aquatic potting media blended with Zeolite- excellent for all water garden plants. Will not float. Perfect for transplanting and planting bare-root plants.
187C	PondCare® Aquatic Planting Media	100% natural aquatic potting media blended with Zeolite- excellent for all water garden plants. Will not float. Perfect for transplanting and planting bare-root plants.
186B	Plant Nutrient Spray	The new and easy way to feed pond plants. Promotes healthy leaves and bigger, brighter blooms of water lilies and all flowering pond plants. Provides essential nutrients along with natural active ingredients including humates, fulvic acid and organic carbon.

PondCare(R) PRODUCTS**

Product , D= Discontinued , C= Change in Pro		
Vendor Item Number	Product Name	Product Description
143B	PondCare® Aquatic Plant Food Liquid	New Formula- Supplies plants with iron and potassium for increased blooms and lush green growth. Aquatic Plant Food Liquid contains a special chelated formula that is readily absorbed through the plants leaves. Regular use will keep pond plants lush and colorful.
185A	PondCare® Aquatic Plant Food Tablets	Tablets contain iron for lush green growth & boron to promote flower formation. Keeps water lilies blooming all season long. Stimulates lush foliage & beautiful blooms of all aquatic pond plants (hardy & tropical plants and marginal & bog plants).
185B	PondCare® Aquatic Plant Food Tablets	Tablets contain iron for lush green growth & boron to promote flower formation. Keeps water lilies blooming all season long. Stimulates lush foliage & beautiful blooms of all aquatic pond plants (hardy & tropical plants and marginal & bog plants).
180	PondCare® Spring & Autumn Premium Pellets	Specially-formulated diet for fish when water temperature is between 42°F and 70°F. Low -protein formula reduces ammonia produced by fish waste. Contains spirulina algae to intensify fish color & stabilized vitamin C to help maintain the immune system.
180A	PondCare® Spring & Autumn Premium Pellets	Specially-formulated diet for fish when water temperature is between 42°F and 70°F. Low -protein formula reduces ammonia produced by fish waste. Contains spirulina algae to intensify fish color & stabilized vitamin C to help maintain the immune system.
180B	PondCare® Spring & Autumn Premium Pellets	Specially-formulated diet for fish when water temperature is between 42°F and 70°F. Low -protein formula reduces ammonia produced by fish waste. Contains spirulina algae to intensify fish color & stabilized vitamin C to help maintain the immune system.
180K	PondCare® Spring & Autumn Premium Pellets	Specially-formulated diet for fish when water temperature is between 42°F and 70°F. Low -protein formula reduces ammonia produced by fish waste. Contains spirulina algae to intensify fish color & stabilized vitamin C to help maintain the immune system.
181	PondCare® Spring & Autumn Premium Pellets	Specially-formulated diet for pond fish when the water temperature is warm - a time of rapid growth & spawning requiring a diet rich in protein. Contains spirulina algae to intensify fish color & stabilized vitamin C to help maintain the immune system.
181A	PondCare® Spring & Autumn Premium Pellets	Specially-formulated diet for pond fish when the water temperature is warm - a time of rapid growth & spawning requiring a diet rich in protein. Contains spirulina algae to intensify fish color & stabilized vitamin C to help maintain the immune system.
181B	PondCare® Summer Staple Premium Pellets	Specially-formulated diet for pond fish when the water temperature is warm - a time of rapid growth & spawning requiring a diet rich in protein. Contains spirulina algae to intensify fish color & stabilized vitamin C to help maintain the immune system.
181K	PondCare® Summer Staple Premium Pellets	Specially-formulated diet for pond fish when the water temperature is warm - a time of rapid growth & spawning requiring a diet rich in protein. Contains spirulina algae to intensify fish color & stabilized vitamin C to help maintain the immune system.
802B	AQUARIAN® Goldfish Flake Fish Food	Complete balanced diet for goldfish contains all necessary proteins, carbohydrates, vitamins & minerals. No artificial colorants. Eagerly eaten, minimizing fish waste & pollution caused by uneaten fish food. Enhances color. Easy-open, easy-to-use can.
802C	AQUARIAN® Goldfish Flake Fish Food	Complete balanced diet for goldfish contains all necessary proteins, carbohydrates, vitamins & minerals. No artificial colorants. Eagerly eaten, minimizing fish waste & pollution caused by uneaten fish food. Enhances color. Easy-open, easy-to-use can.
802D	AQUARIAN® Goldfish Flake Fish Food	Complete balanced diet for goldfish contains all necessary proteins, carbohydrates, vitamins & minerals. No artificial colorants. Eagerly eaten, minimizing fish waste & pollution caused by uneaten fish food. Enhances color. Easy-open, easy-to-use can.
802E	AQUARIAN® Goldfish Flake Fish Food	Complete balanced diet for goldfish contains all necessary proteins, carbohydrates, vitamins & minerals. No artificial colorants. Eagerly eaten, minimizing fish waste & pollution caused by uneaten fish food. Enhances color. Easy-open, easy-to-use can.
26	API® Nitrite Test Kit	Tests for nitrite in freshwater & saltwater aquariums. Nitrite, toxic to fish, is produced by nitrifying bacteria in the biological filter as it breaks down ammonia. 180 tests per kit.
28	API® pH Test Kit	Proper pH control is imperative to prevent the harmful effects of too alkaline or too acidic aquarium water on fish and plant life. Tests pH levels from 6.0 to 7.6. 250 tests per kit.
LR1800	API® Nitrate Test Kit	Effective for both fresh & saltwater aquariums. High levels of nitrate are a food source for unwanted algae & indicate poor water quality & health problems for fish. Tests nitrate levels from 0 to 160 ppm.
LR8600	API® Ammonia Test Kit	Salicylate test measures ammonia levels in both fresh & saltwater aquariums. Ammonia, the #1 killer of tropical fish, is continually produced in the aquarium from fish waste & uneaten fish food. Tests ammonia levels from 0 to 8 ppm.

Mars Fishcare (formerly Aquarium Pharmaceuticals)
PondCare(R) PRODUCTS

Product, D= Discontinued, C= Change in Pro		
Vendor Item Number	Product Name	Product Description
160	PondCare® Wide Range pH Test Kit	Quickly and accurately tests pH of pond or tap water. Proper pH control is necessary to prevent harmful effects of water too alkaline or too acidic. Quickly and accurately tests for pH levels from 5.0 to 9.0. Performs 160 tests.
65L	API® Copper Test Kit	Test reads 0 to 4 mg/L or parts per million (ppm) of copper. Helps to maintain a healthy aquarium or pond for fish by ensuring that copper (a common treatment for many parasitic infections) levels are within the healthy range.
63L	API® Phosphate Test Kit	As phosphate increases, so does the chance of having unsightly algae and green water blooms. Test reads 0 to 10 mg/ or parts per million (ppm) of phosphate in fresh or salt water.
164M	Pond Care® Master Liquid Test Kit	A complete kit for testing tap water & pond water. Tests water 4 different ways to protect fish from dangerous water conditions. Tests include: pH, ammonia, nitrite and salt. Kit contains instruction book, improved color cards for easier reading, 4 test tubes and holding tray.
164F	PondCare® 5-In-1 Test Strips	The new PondCare 5-In-1 Dip Strips provide distinct variations between colors on the color charts for Easy-To-Read results. The desiccant liner on the container keeps the strips dry maintaining product stability and extending the shelf life. Part of a complete testing lineup from PondCare! Highly precise color charts - No separate test vial require- dip strip directly into the pond-East-To-Read directions and product recommendations.
33D	API® Ammonia Test Strips	Measures ammonia levels from 0 to 6 ppm in fresh or saltwater in one easy step. Just dip & read!
33E	API® Nitrite/Nitrate Test Strips	Tests nitrate & nitrite levels in fresh or saltwater. Just dip & read!
33F	API® pH Test Strips	Tests wide range of pH levels from 6.0 To 9 in fresh or saltwater Just dip & read!
149B	PondCare® Ammo-Rocks®	The perfect biological filter media. Natural ion-exchange resins trap toxic ammonia on the surface, then nitrifying bacteria is stimulated by the concentration of ammonia and improves the development of the biological filter.
73F	Super Activated Carbon	A special super activated, carbon that removes colors, odors, and organics. Research grade carbon has the best pore distribution for the most effective filtration in fresh and saltwater aquariums.
76C	API® Activated Filter Carbon	Creates clear pond water by removing discoloring substances, as well as pesticides that may accidentally drift into the pond. Removes dissolved organic compounds that cause surface foaming, low pH and reduced oxygen levels.
79C	API® Ammo-Chips®	Remove deadly ammonia, which adversely affects fish respiration, leading to suffocation and even death. Can be used safely with Phosphate Remover and Super Activated Filter Carbon. Completely rechargeable. Especially recommended for new ponds.
157	PondCare® Polyester Pre-Filter Pads	Dual-action pads with coarse layer which removes large particles of debris & uneaten fish food & ultra-fine layer which removes fine particles. Can be used as-is or cut to fit any submersible or out-of-pond filter box.
147G	PondCare® EcoFix®	digesting sludge, and reducing organics, EcoFix increases oxygen levels and
138G	PondCare® Barley Clear	plus natural activators. Phenolic compounds found in the Barley naturally
155G	PHOS-OUT™	Excess phosphate can cloud pond water. PHOS-OUT™ binds with inorganic
166G	Ammo-Lock®	it into a form that is nontoxic to aquatic life and a source of nutrition for
167A	PondCare® Algae Destroyer™ Advanced	problems. Controls many types of green or green water algae, string or hair algae and blanketweed in ponds that contain live plants. It also helps resolve additional algae blooms.
176A	MelaFix®	wounds. Treats fin & tail rot. Use when adding new fish to the pond. Will not
143G	Aquatic Plant Food Liquid	and lush green growth. Aquatic Plant Food Liquid contains a special chelated
265A	PondCare® BioFilter Booster™	biological filter. Reduces the build-up of toxic chemicals from fish waste and
265B	PondCare® BioFilter Booster™	biological filter. Reduces the build-up of toxic chemicals from fish waste and
265G	PondCare® BioFilter Booster™	biological filter. Reduces the build-up of toxic chemicals from fish waste and
158	Activated Carbon Coated Filter	removes pesticides, colors, odors, organic waste and harmful chemicals. Can
162	PondCare® Ammonia Test Kit	Quickly and accurately determines the level of toxic ammonia in new & establish
166A	PondCare® Ammo-Lock®
